### Another podium finish for Koenig Racing!

When asked to comment on this race, owner/driver Mike Koenig said simply, "What can you say about a race that went almost perfectly?!"

With almost no prep, the truck ran flawlessly all day. Prior to the race, the only tweaks were minor.

Mike added, "We lowered the ride height, remounted the seats to lower the center of gravity, removed everything that wasn't needed for short course racing, and we were ready to go."

For all six laps of all three motos, the Koenig Racing Total Chaos Toyota Tacoma was right on the rear bumper of a much lighter (1200 pounds lighter) truck. Lap after lap, Mike put pressure on the on the other racer. Where Mike could use his power to pass, the track was way too narrow. At one point, Mike attempted to go around by muscling his truck off the course, but when he came back on, his competition edged his way past again by also coming back in from way off the course.

Koenig's Goodyear MT-R's hooked up so well, he was one of only three vehicles able to clear the infamous Prairie City 80-foot double jump.

This was Koenig Racing's second, second place finish in as many races. It keeps the momentum going as they start the four-race VORRA desert series.

Thanks to Total Chaos, Goodyear, King Shocks, Currie Enterprises, Off Road Warehouse, Desert People, Doug Thorley and everyone on our team.

NEXT RACE:  
VORRA YERINGTON NEVADA 300  
MAY 28 - 31
